At the time of initial registration, Fort Monmouth provided your department with several detailed maps of each of the above referenced areas located at Fort Monmouth. Each of those detailed maps indicates all building locations (by number) located at Fort Monmouth. To identify any specific UST, correlate the corresponding building number located in the inventory with the building number on the detailed area map. Due to the complexity of our facility's registrations, we have developed and are currently using this system for locating and managing our USTs.

I have enclosed a completed Registration Questionnaire and a listing of USTs currently in use at the MAIN POST WEST AREA (0081533). This listing was used for compiling the answers for questions 7 and 8 of the questionnaire. Please note that the USTs registered in this package have all been removed. All of these USTs were previously unknown and were removed upon identification by an NJDEPE Certified UST removal contractor, CUTE Inc.. Therefore, the listing does not contain the newly registered USTs. A detailed Site Assessment Summary for each closure site will be sent as soon as it is completed.

If the information provided in this enclosure is inadequate or you require further information with regard to any of the above Fees please contact Mr. Charles Appleby, Environmental Protection Specialist, at (908) 532-6224.

Sincerely,

James Ott
